To our Wexner Heritage Village residents, families and community,

When we began preparing for the potential arrival of the Corona virus to Columbus, we informed you of the many safety measures we were taking and assured you we would share news of any outbreaks on our campus. To that end, we want to provide the following update.

Last week, a Wexner Heritage House staff member tested positive for COVID-19. This person was immediately quarantined at home under a physician's care. Presently, all Heritage House residents are asymptomatic but are being isolated in an abundance of caution and we are not accepting any new patients at this time.

We are working closely with the State and local health authorities and are following all recommended safety protocols. All residents and staff are being cared for with comprehensive infection protocols in an isolated environment as of 5/22.

Presently, Wexner Heritage Village presently has no positive COVID-19 resident cases on our campus.

We will continue to reach out to families directly and update this website with important news, so please check back regularly.

If you have any questions or concerns, please call Leslie Fulford, WHV Director of Community Outreach at 614-559-0268 or email lfulford@whv.org.

Stay safe,

Chris Christian

President & Chief Operating Officer
Wexner Heritage Village
